Help Guide

For

TRIDENTA

Website Template

Version: 1.0

Author: binarytheme

TABLE OF CONTENT

1. OVERVIEW

TRIDENTA is a responsive web template using **Twitter Bootstrab Framework** , it can be used for any kind of website which you wish to make. It is a user friendly and easy to customize template. It comes with **four color schemes** and a huge collection of plugins that makes your work easy. Just go through all the sections of this document and you will have the full knowledge of this powerful template. Moreover all codes written on HTML / JS / CSS files are self explanatory with comments provided with them and hence this will make you comfortable to customize the template.

2. IN THE BOX

Here is first step of using TRIDENTA Template.

- Just Unzip the folder you get and you will find the stuff inside it, given in the screenshot below in the main template folder
- **assets** folder contains folders named css , fonts, img, js & scripts which we wrote to power this template.
- Apart from assets folders you will see index.html page, this html page contains all HTML code in it.

Name	Date modified	Type	Size
assets	2/21/2014 5:47 PM	File folder	
index	2/21/2014 5:48 PM	Chrome HTML Do...	31 KB

3. TEMPLATE STRUCTURE

Template structure consists of Header section, page content and footer section, All these sections are described as under:

1. **Header Section:** Header contains your logo and menu links. These can be customized according to your ease.

2. **Page Content:** This is the main section where you can put actual content/data specific to the page. This contains **home**, **about**, **our works** , **services** , **contact** sections

3. **Footer Section:** This section contains social page links and a copyright text.

4. PAGE STRUCTURE

4            <div class="navbar-header">
5                <button type="button" class="navbar-toggle" data-toggle="collapse" data-target=".navbar-collapse">
6                    <span class="fa fa-bars mobile-bars" style=""></span>
7                </button>
8                <a class="navbar-brand" href="index.html" >
9                    <img src="assets/img/logo.png" alt="" />
10               </a>
11           </div>
12           <div class="navbar-collapse collapse" data-scrollreveal="enter from the right 50px">
13               <ul class="nav navbar-nav">
14                   <li class=""><a href="#Homepage">Home</a></li>
15                   <li><a href="#section-about">About</a></li>
16                   <li><a href="#section-works">Our Works</a></li>
17                   <li><a href="#section-services">Services</a></li>
18                   <li><a href="#section-contact">Contact</a></li>
19               </ul>
20           </div>
21
22       </div>
23   </div>
24   <!-- END HEADER SECTION-->
```

Page Content

Page content consists **home**, **about**, **our works**, **services**, **contact** sections and their content can easily be customized. The HTML structure is shown below

```html
<!--PAGE CONTENT-->
<!-- HOMEPAGE SECTION-->
<section id="Homepage">
    <div class="container">
        <!-- HOMEPAGE CONTENT GOES HERE-->
    </div>
</section>
 <!--END HOMEPAGE SECTION-->
 <!-- ABOUT SECTION-->
<section id="section-about" class="section">
    <div class="container" data-scrollreveal='after 0.30s'>
        <!-- ABOUT CONTENT GOES HERE-->
    </div>
</section>  <!-- END ABOUT SECTION-->
 <!-- WORKS SECTION-->
<section id="section-works" class="section" >
    <div class="container" data-scrollreveal="enter top move 50px">
        <!-- WORKS CONTENT GOES HERE-->
    </div>
</section>  <!--END WORKS SECTION-->
 <!-- SERVICES SECTION-->
<section id="section-services" class="section" >
    <div class="container" data-scrollreveal='after 0.30s'>
        <!-- SERVICES CONTENT GOES HERE-->
    </div>
</section>  <!-- END SERVICES SECTION-->
<!-- CONTACT SECTION-->
<section id="section-contact" class="section">
    <div class="container" data-scrollreveal="enter left and move 40px over 0.8s">
        <!-- CONTACT CONTENT GOES HERE-->
    </div>
</section>
    <!-- END CONTACT SECTION-->
    <!--END PAGE CONTENT-->
```

Footer

This is the section contains social page links and a copyright message. HTML code for your ref. is given below

```
1    <!-- FOOTER SECTION-->
2    <section id="footer" class="section footer">
3        <div class="container">
4            <div class="row">
5                <div class="col-sm-6">
6                    <ul class="social-network social-circle">
7                        <li><a href="#" class="icoRss" title="Rss"><i class="fa fa-rss"></i></a></li>
8                        <li><a href="#" class="icoFacebook" title="Facebook"><i class="fa fa-facebook"></i></a></li>
9                        <li><a href="#" class="icoTwitter" title="Twitter"><i class="fa fa-twitter"></i></a></li>
10                       <li><a href="#" class="icoGoogle" title="Google +"><i class="fa fa-google-plus"></i></a></li>
11                       <li><a href="#" class="icoLinkedin" title="Linkedin"><i class="fa fa-linkedin"></i></a></li>
12                   </ul>
13               </div>
14               <div class="col-sm-6 align-center">
15                   <div class="col-sm-12">
16                       <p>Copyright &copy; yourcompanyname.com</p>
17                       <p>2014 All Rights Reserved</p>
18                   </div>
19               </div>
20           </div>
21
22
23       </div>
24
25    </section>
26    <!-- END FOOTER SECTION-->
```

```
1    <!-- HEAD SECTION-->
2  <head>
3      <meta charset="utf-8">
4      <title>TRIDENTA Template, Responsive One Page HTML Bootstrap Template</title>
5      <meta name="description" content="">
6      <meta name="viewport" content="width=device-width, initial-scale=1.0">
7      <!-- MAIN STYLE SECTION-->
8      <link href="assets/plugins/isotope/isotope.css" rel="stylesheet" media="screen" />
9      <link href="assets/plugins/fancybox/jquery.fancybox.css" rel="stylesheet" />
10     <link href="assets/plugins/IconHoverEffects-master/css/component.css" rel="stylesheet" />
11     <link href="assets/plugins/bootstrap/bootstrap.css" rel="stylesheet" />
12     <link href="assets/css/about-achivements.css" rel="stylesheet" />
13     <link id="mainStyle" href="assets/css/style.css" rel="stylesheet" />
14     <link href='http://fonts.googleapis.com/css?family=Varela+Round' rel='stylesheet' type='text/css'>
15     <!-- END MAIN STYLE SECTION-->
16  </head>
17  <!-- END HEAD SECTION-->
```

6. HEADER SECTION

11

1. **Logo:** This is the logo section and the HTML Sample Code is shown below

```
1    <a class="navbar-brand" href="index.html" >
2                    <img src="assets/img/logo.png" alt="" /> <!-- logo here-->
3            </a>
```

2. **Menu Links:** This is the menu section and the HTML Sample Code is shown below

```
1        <!-- HEADER SECTION-->
2        <div class="navbar navbar-fixed-top" role="navigation">
3            <div class="container">
4                <div class="navbar-header">
5                    <button type="button" class="navbar-toggle" data-toggle="collapse" data-target=".navbar-collapse">
6                        <span class="fa fa-bars mobile-bars" style=""></span>
7                    </button>
8                    <a class="navbar-brand" href="index.html" >
9                        <img src="assets/img/logo.png" alt="" /> <!-- logo here-->
10                   </a>
11               </div>
12               <div class="navbar-collapse collapse" data-scrollreveal="enter from the right 50px">
13                   <ul class="nav navbar-nav">
14                       <li class=""><a href="#Homepage">Home</a></li><!-- menu links-->
15                       <li><a href="#section-about">About</a></li>
16                       <li><a href="#section-works">Our Works</a></li>
17                       <li><a href="#section-services">Services</a></li>
18                       <li><a href="#section-contact">Contact</a></li>
19                   </ul>
20               </div>
21
22           </div>
23       </div>
24       <!-- END HEADER SECTION-->
```
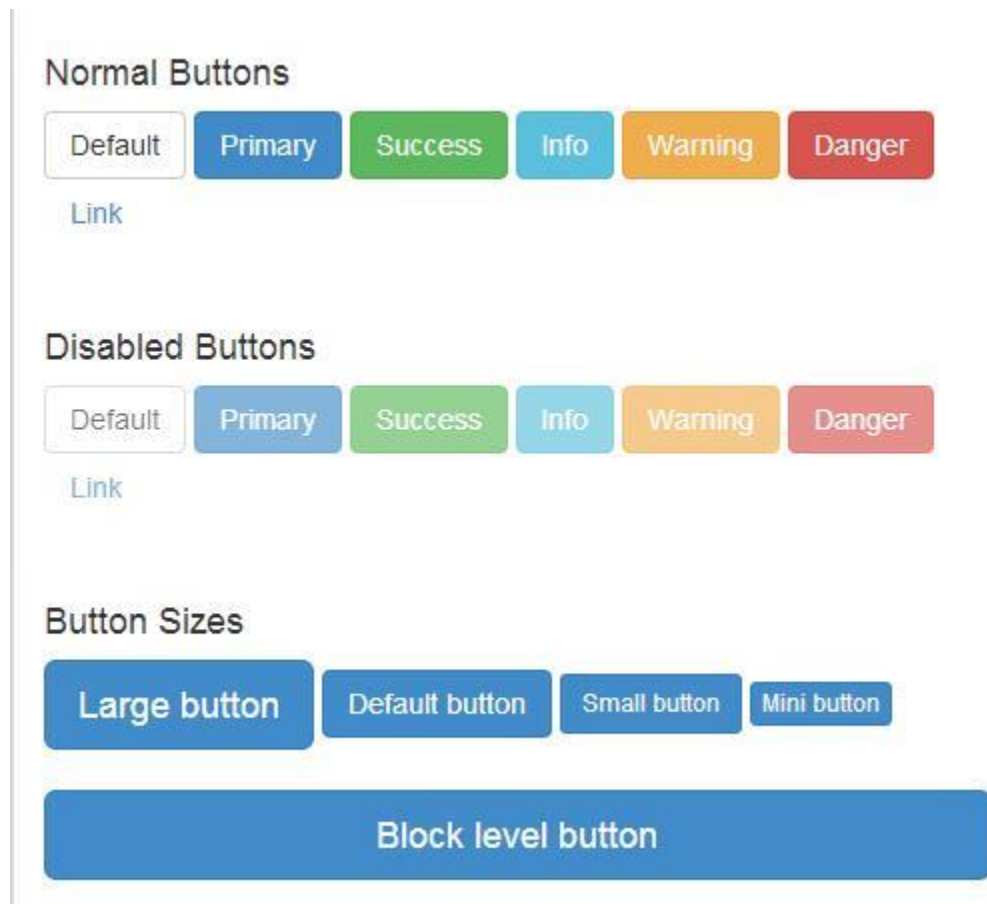

7. UI ELEMENTS

Lots of UI elements like buttons, icons, etc are supported by bootstrap for further ref. please check the URL given in *Plugins Usage & Ref.* section

Icons

There are lots of flexible icons supported by font-awesome and that can be used in this template. The URL is given in plugins sections for further ref. of icons.

Buttons

Button styles can be applied to any element with the .btn class as described below as samples. We can apply these classes mainly on **<a>** and **<button>, <input>** elements, etc.

You can understand this by this example:

<button type="button" class="btn btn-default">Default button</button>

Class **btn btn-default** can be used for *default button*
